

It is my opinion that FM translator service should continue to be given priority over LPFM. I listen to K-LOVE which is a radio station at FM 94.9 on a daily basis. I would greatly miss this station should LPFM cause disruptions in this station. There are not many Contemporary Christian stations as it is so it would be a big loss to loose this one. I have been listening to K-LOVE for several years now and I have no doubt that the programming provides encouragement and hope to me and others in the Memphis area. K-LOVE is listener supported and would not be able to continue to broadcast in this area if not for the support of thousands of listeners.
